CLIENT SPEAKS

PROUD OWNERS OF CELESTE VILLA 3 – SUNIL KUMAR & FAMILY

Finalising a vendor to do the interior work for your dream home is always challenging. We were too sceptical and confused as there are too many stories of unhappy ending all over. Additionally we were looking for someone who takes up full ownership for us to manage it remotely with minimal effort.

We were fortunate to associate with the talented and highly professional team from Asset side, especially Anju, Neelima, Shameena, abhilash and Arunima. They were able to conceptualise what we explained and visualised. We are very happy with the final product we received and the overall handling of the project, from design stage until delivery. Great job, well done! Many thanks to all those involved and wishing you many
